

MSCC Competition Rules 2022 - 23

General Rules

1. Entry is open to paid-up members of the club.
2. Entries must be entirely the member's own work that is to say all elements of the image must be created by the member and any image processing must be performed by the member.
3. Entries must be produced under the direction of the member. Images from a workshop or joint activity must be created under the control of the member, not a workshop leader or other contributors.
4. Entries may be influenced by the work of others, but must not intentionally copy them (see para 46).
5. Entries must not include elements created by others such as published, downloaded or public domain images or clip art and must not include computer-generated images of objects (e.g. skies, lightning, scenery).
6. In a time of developing technology, it is hard to create rules covering every new development but members are asked to minimise the use of aids such as automated software and AI so that images fully represent members own skills and creativity rather than those of software tools or the skills of others captured in them. **Entries must abide by the general WCPF Competition Rules (Extract – Interim AI Update August 2023) in respect to the use of AI (see Appendix One)**
7. By entering images into a competition, the member confirms that they comply with rules 3-8.
8. Entries must originate as photographs i.e. image capture of objects via light sensitivity.
9. Entries may be colour or monochrome (as competition subject requires).
10. Entries must be submitted by the published competition closure date.
11. Members are encouraged to submit entries no more than 2 years old.
12. The same entry may be submitted to not more than two club competitions within 12 months.
13. Print entries:
 - Must be on a 50cm x 40cm mount with a robust backing board
 - Must have the Image Title, entrants Membership Number and the Presentation Sequence Number clearly printed on the back (please note, authors initials will not be accepted as image titles)
 - Must be accompanied by a digital copy uploaded to the club's PhotoEntry system
 - May be mounted for landscape or portrait viewing but can be presented as a square or panoramic image
14. Digital entries:
 - Must be in the JPEG (.jpg) file format
 - Must use the sRGB colour space
 - Must be sized to a maximum width of 1600 pixels and a maximum height of 1200 pixels
 - Must be sized for landscape viewing (i.e. not more than 1200 pixels high)
 - Must be uploaded to the club's PhotoEntry system.
15. Should a competition receive too many entries for practical judging in one evening, the number of entries may be reduced using the priorities recorded in PhotoEntry.

16. Competition entries and results may be displayed in club meetings, published on the club website and Facebook page, and displayed to members in recordings of club events and via PhotoEntry. They may continue to be displayed after the entrant's club membership has expired.
17. Competition entries judged likely to cause offence to members will be rejected.

Club Competitions

Competitions 1-4

18. The club runs four internal club competitions per year (Competitions 1-4); two with a defined theme/subject and two open competitions with no defined subject. Competitions may be split into sub-competitions with a maximum number of entries per member across all sub-competitions.

External Definitions of Competition Subjects

47. Members should note that WCPF and PAGB competitions apply strict rules on the definition of certain competition subjects, specifically Nature, Wildlife, Monochrome and Travel. These definitions may be found at www.wcpf.org.uk and www.thepagb.org.uk or via the club website.

Using Image Ideas from Other People

48. A useful article on the intentional or accidental use of image ideas and elements from other people can be found here <https://christinewiddall.co.uk/musings/plagiarism-photography>

Appendix 1

General WCPF Competition Rules (August 2023)

In all cases, the original image(s) must have been taken using a photographic process and be the sole copyright of the Entrant. All photographic processes and techniques are eligible (subject to any competition-specific rules that may apply) providing that the photographer owns the copyright to all elements of the picture. Any modification of the original image(s) must be made by the photographer or under their personal direction.

The use of clip-art, computer generated elements, downloaded textures, third-party decorative borders, or elements from any other photographer's images are not permitted. Images or image elements generated by any software tool are not permitted. This includes but is not restricted to backgrounds, textures, skies, props and other embellishments. Any creative, shaped or textured brushes must be created by the photographer.

Software tools that replace or remove an image element or extend an image such as content-aware fill, healing, patching or object removal are only permitted where the source for the inserted image data is wholly contained within the base image(s). It is the photographer's responsibility to ensure that the tools they use do not draw image content from outside the photographer's own work.

Guidance on the use of image creation and processing tools (sometimes labelled as "AI")

Generative AI is not photographic and is therefore not permitted. Generative AI draws on data from outside the existing image and uses algorithms to create new content. AI-based generative fill, scene extension, patching or object removal is not permitted. Any adjustments must use tools that draw data only from within the existing image(s).

Technology that enhances an existing image without drawing on image data from outside that image (e.g., AI De-noise, AI Scaling, AI Sharpening) is acceptable. In general, the output image viewed at full-screen should look nearly identical to the original.
